

## ORLACO - FAMOS

ORL0171070  
Camera FAMOS 170° PAL

- Robust construction for extreme environments
- 12 or 24 V DC
- operating temperature -40 to +85 °C
- Epoxy-filled, better protection against moisture

### Product description

These cameras are available in several different viewing angles to suit the various applications they can be used in. For example, if you want to see details in a long way, choose a narrower opening angle and instead you want a cross-section view, choose a further opening angle. Orlaco cameras are suitable for all types of vehicles, regardless of whether you need a power camera, back camera or side camera.

Orlaco's new FAMOS camera is not gas-filled as the traditional clover camera has been before, but it's epoxy-filled instead. This has provided better protection against moisture.

### Specifications

<b>Camera Angle</b>	170
<b>Contacts</b>	4-pole male
<b>Image Format</b>	PAL
<b>IP Class</b>	IP68, IP69K
<b>Supply Voltage DC Max</b>	24

Supply Voltage DC Min	12
Temperature range from	-40
Temperature range to	85

**Electrical connections**  
**Front side of molded 4p male connector**  
 1 = Coax core = Video signal  
 2 = Coax screen = Video GND  
 3 = Red = 12...24V/DC  
 4 = Black/orange = 0V  
 Shielding To connector housing
