

CAMERA KITS FOR ASPHALT PAVERS

SURROUND-AP

SurroundView camera system for asphalt paver

- Analog PAL/NTSC
- Digital HD
- Surround view/Reversing-side-front view

Product description

The design of an asphalt paver can often cause significant limitations to the field of vision around the entire machine or a particular paving process. To combat the limited field of vision on asphalt pavers Orlaco supply a range of camera kits for surround view and reversing-side-front view.
