

CONDUCTIVE LEVEL-PROBE - SLP SERIES

00.0008.0053

500mm length, 3electrodes, G1

- 1 to 4 St. Steel electrodes
- Electrodes length from 100 mm. to 1500 mm.
- Brass, St. Steel, PPL body materials
- Working pressure up to 6 bar
- Working temperature up to 100°C

See ELECTRA
VNR.21.22

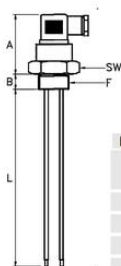

Product description

The SL conductive probe series provides a solution for controlling the level of liquid with a minimum value of conductivity of 1 μ s.

The probes are available in a wide variety of materials and process connections and are of construction appropriate to operation in extreme conditions such as those found on industrial plants.

Specifications

Electrode Length	500mm
IP Class	IP65
Manufacturer Part No	SLP.25G.3X500.K.S1
Max. pressure	6
Number of electrodes	3
Temperature range to	100

Electrodes length mm. L	500	1000	1500
SW mm	A mm	B mm	
32	63	20	
32	63	20	
40	68	20	
55	68	20
