Terminal Block SRKD 2.5sq Double Deck Beige

- Pluggable cross connectors
- Compatible with SRK series
- Snap on Earth
- Linked versions
- Material polyamide 6.6 UL 94-V0

Product description

The SRKD terminal blocks are available to suit wire sizes 2.5 mm², 4 mm² and 10 mm². The standard SRKD models have two potentials with 2 x 2 connections, further options include linked versions with four connections on one potential and as a protective earth terminal with a snap-on PE foot contact. The SRKD range is compatible with the 'Plug in' cross connectors used in the existing SRK range. Just like the established SRK series, the new SRKD units feature a compact housing and provide excellent stability, vibration resistance, and optimal attachment of the wires to the contact point. The terminals are equipped with a large wire entry bay that makes the insertion of wires easy and effortless. The connection of multiple wires is also possible. The terminal's robust housing safely anchors all the metal parts on the inside. The foot construction of the snap-on units ensures a reliable, firm hold on the mounting rail.
