

# KUBLER SLIP RING SR120

SR120-020106L44002

- Modular system
- Ethernet compatible
- Transfer speed up to 100 Mbps
- Shielded metal casing

## Product description

The SR120 slip ring is specially designed for applications in industrial automation and Ethernet transmission.

Thanks to its modular system, it can combine Ethernet data, power, signals, air and hydraulic transmission with up to 20 channels. With its well-developed 3-chamber system, the slip ring becomes shielded and insensitive to interference.

The house is as standard in aluminum but can also be ordered in stainless steel.

## Specifications

|                               |           |
|-------------------------------|-----------|
| <b>IP Class</b>               | IP64      |
| <b>Life span</b>              | 500000000 |
| <b>Temperature range from</b> | -35       |
| <b>Temperature range to</b>   | 85        |

- 1 - Mounting flange
- 2 - Centring flange
- 3 - M12 female connector (if opt.)
- 4 - Grounding PE (optional connectivity)
- 5 - Grounding PE (optional connectivity)
- 6 - Grounding PE (optional connectivity)
- 7 - Anti-rotating pin
- 8 - 2 m (8.26') connecting cable for load transmission
- 9 - 2 m (8.26') connecting cable for signal transmission
- 10 - Blind plug - depending on order cable rotor connections not ready
