

KUBLER SLIP RING SRI085

SRI085.D0835

- Modular system
- Maintenance-free signal transmission
- Lifespan 500 million revolutions
- Two-chamber system

Product description

In the SRI085 series, PT100 signals are transmitted by means of a contactless inductive connection. This secures the data channels without maintenance requirements.

The design is modular and offers the greatest flexibility in a number of different applications.

SRI085's housing is built in fiberglass-reinforced polycarbonate for use in industrial use.
