

MIDWEST OPTICAL - BN630

F/BN630-C

Bandpassfilter - narrow, 630nm, for C-mount

- Light red bandpass filter
- Work area 610-650 nm
- For red high intensity LED

Product description

Midwest Optical Systems bandpass filters are ideal for use in combination with LED or laser diode lighting. These filters consist of a precision polished glass filter with an anti-reflex coated surface. They are more rugged, thinner, less angular and have a much higher transmission than conventional filters. Use of bandpass filters improves the contrast and often eliminates unwanted effects of disturbing ambient lighting.

Specifications

Filter thread (thread diameter x pitch)
