CMP-M6Z1212M

- Available from 6-62x Zoom!
- Includes motors for Zoom, Focal length and Iris
- Ideal for long distance surveillance applications
- Available with Video Iris, Spot and Preset features

### Product description

Computar's Motorised C-Mount Zoom Lenses provide remote control of focal length, iris and focus through the use a lens controller, for use where variable focal length and remote control are required. H series provide lenses with zooms ranging from 6X-60X zoom! They are ideal for applications requiring long distance surveillance in parking lots, highways. For extreme long-distance surveillance, the Computar Thru Vision 60X zoom lens can be used to provide images clearer than the human eye.
