

## TECNOPLASTIC - WATER FILTERS - DOLPHIN RANGE

FDOSIN05OT101

Single, 5" housing, 1" brass threads

- Single, double, and triple filters
- Housing in 5" or 10"
- Standard, anti UV, and high temperature
- 3/4" or 1" thread

### Product description

The TecnoPlastic standard Dolphin plastic filter is totally manufactured with no-toxic material according to the ACS legislation and is intended for use in permanent drinking water or general water applications.

The Blue Dolphin is an anti UV filter to prevent the proliferation of algae and bacteria.

The unique feature of the Red Dolphin water filter is it can go up to 80°C compared to the standard version at 45°C.

With the water filter joint system multiple filters can be connected in series of two or three and come ready assembled. These water filters are made up of three pieces (head, nut and glass filter housing) and accessories such as filter cartridges, mounting brackets and tightening tools can be found on the accessories page.
