

TECNOPLASTIC ANTI WATER HAMMER FILTERS WHALE RANGE

FWHSIN05OT101

Single, 5" housing, 1" brass threads

- Single, double, and triple
- Cartridge housing in 5" or 10"
- Standard or anti UV
- 3/4" or 1" thread

Product description

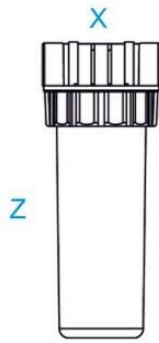

The TecnoPlastic Whale plastic filter is totally manufactured with no-toxic material according to the ACS legislation and is intended for use in permanent drinking water or general water applications. The unique feature of this water filter is it has built-in anti water hammer to prevent possible damage to the filter through over-pressure and is supplied with a water drain storage bag.

The Blue Whale is an anti UV filter to prevent the proliferation of algae and bacteria.

With the water filter joint system multiple filters can be connected in series of two or three and come ready assembled. These water filters are made up of three pieces (head, nut and glass filter housing) and accessories such as filter cartridges, mounting brackets and tightening tools can be found on the accessories page.

Specifications
